PROFESSIONAL SUMMARY

Aspiring Software Developer with hands-on experience in Python, HTML, CSS, JavaScript, Git and GitHub. Built AI chatbots and browser games through self-learning and bootcamps. Passionate about solving real-world problems and continuously learning modern software technologies.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3

Tools: Git, GitHub, VS Code, Canva

Concepts: AI Chatbots, Prompt Engineering, Responsive Web Design, Browser Game Development

FEATURED PROJECTS

AI Chatbot

- Developed a responsive AI chatbot interface using modern web technologies.
- GitHub: github.com/priyanshu-aiCodes/chatbot

Galaxy Rescue Shooter

- Built a 2D browser-based shooter with collision detection, scoring and gameplay mechanics.
- GitHub: github.com/priyanshu-aiCodes/Galaxy-Rescue-Shooter

CERTIFICATIONS

Vedam School of Technology

- AI Chatbot Development Bootcamp
- Introduction to Programming (CodeSprint)
- 2D Game Development Bootcamp

EDUCATION

Class 12 (Non-Schooling)

Preparing for IIT JEE (Computer Science Engineering)

SOFT SKILLS

Problem Solving • Teamwork • Communication • Adaptability • Continuous Learning • Time Management

CAREER OBJECTIVE

Seeking internship and project opportunities to apply my programming skills, contribute to meaningful software solutions, and grow as an AI and Full-Stack Developer.
